

OF SURGERY VOL 24 SUPPLEMENTARY TO SURGERY GYNECOLOGY AND OBSTETRICS

"She's called Dragonfly, and she does all the work, and I saw her once last year. She's tall, and as beautiful as a flowering tree," said the youngest daughter, Rose, who was busy crowding a lifetime of keen observation into the fourteen years that were all she was going to have for it. She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he would hear that cough, this time? He smiled at young Rose, and the mother's heart lifted. Surely he wouldn't smile so if Rose's cough was anything serious? "To keep you." passengers. "I know. I said everything wrong. I did everything wrong. I betrayed everything. The magic. And. Another pause. Golden glanced over at his wife, who stood by the window listening in silence. Then he looked at his son. Slowly the mixture of anger, disappointment, confusion, and respect on his face gave way to something simpler, a look of complicity, very nearly a wink. "I see," he said. "And what did you decide you want?" till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and. To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. Anieb's understanding was that lamp. Each step revealed the next step he must take, but he could never see the place where he was. He did not know what was coming next, and did not understand what he saw. But he saw it, and went forward, word by word. Havnor Great Port, Roke has remained without an archmage. It appears that this office, not you." And when he had drunk his soup, and she was settled with her mending, he told it. He had never told Ogion anything about his first teacher, a sorcerer of no fame, even in Gont, and almost pleading, incredulous silence, he insisted: "You could. A woman you are, but there are ways. no true speech. From now on he could talk only the language of duty: the getting and the spending. think of using magic to free himself or stop the men's brutality. He flung himself at them and. They kissed each other all over their faces. To Rose's lips Diamond's face was smooth and full as a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving recently. To Diamond's lips Rose's face was soft as silk, with just a hint of grittiness on one cheek, which she had rubbed with a dirty hand. They moved a little closer so that their breasts and bellies touched, though their hands stayed down by their sides. They went on kissing. I looked at her. She was quite serious. Well, yes, how was she to know? I shrugged. let the mare have her head when somebody came among the dogs shouting curses and beating them back. "Of course I'll bring my band," Tarry said, "fat chance I'd miss it! You'll have every tootler in." "Look at all the stuff you can do," she said. "You couldn't do any of it if you didn't have a gift." always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's. then it was not really what she had wanted to know, but she wanted to know more. He came daily to see that Otter was recovering from his concussion and dislocated shoulder. out. So I'm all right. What about you, Di?" My eyes still closed, I touched my chest; I had my sweater on; if I'd fallen asleep without. Three children, two boys of fifteen or sixteen and a girl of twelve, were taken by one of Losen's patrols south of Omer, running a stolen fishing boat with the magewind. The patrol caught them only because it had a weatherworker of its own aboard, who raised a wave to swamp the stolen boat. Taken back to Omer, one of the boys broke down and blubbered about joining the Hand. Hearing that word, the men told them they would be tortured and burned, at which the boy cried that if they spared him he would tell them all about the Hand, and Roke, and the great mages of Roke. The mage said, "Majesty, as you know, my poor skill has not availed, but I have sent for the greatest healer of all Earthsea, who lives in far Narveduen, and when he comes, your highness will surely walk again, yes, and dance the Long Dance." "I told him," Golden said, "that I had seen you, with a turn of your hand and a single word. roaster tower, a narrow passage in the three-foot-thick walls. He took Otter's arm, for the young. completely. A small mouth in an uncertain smile, the lips painted, the nostrils also red inside -- I." "To Roke?" She stared. "To Roke, Di? Then you really do have the gift -- you could be a sorcerer?" Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance. to my face. He was destroyed, and his fleet scattered. She got him onto his bed, pulled the shoes off his feet, and left him sleeping. Berry came in late and drunker than usual, so that he fell and gashed his forehead on the andiron. Bleeding and raging, he ordered Gift to kick the shorsher out the housh, right away, kick 'im out. Then he vomited into the ashes and fell asleep on the hearth. She hauled him onto his pallet, pulled his shoes off his feet, and left him sleeping. She went to

look at the other one. He looked feverish, and she put her hand on his forehead. He opened his eyes, looking straight into hers without expression. "Emer," he said, and closed his eyes again. "Tailoring?" Dulse thought sometimes in those years about sons and fathers. He had quarreled with his own father, a sorcerer-prospecter, over his choice of a teacher; his father had shouted that a student of Ard's was no son of his, had nursed his rage and died unforgiving. "I doubt the Doorkeeper would defy it lightly," said one of them Irian had not noticed till he him. The thing that was hopping up and down on the grass between their bare toes was a rock. They stared from a distance at the heap lying in the doorway of San's. Gelluk was used to hearing people say the words he had put in their mouths, if they said anything at all. These were words he wanted but had not expected to hear. He took the young man's arm, putting his face very close to his, and felt him cower away. When he had done what he could to warn the city, and seen all the gate-guards and port-guards doing what they could to keep the few roads out from becoming choked and murderous with panicky people, Ogion shut himself into a room in the signal tower of the Port, locked the door, for everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on the Mountain. not recall how or when I entered a wide avenue; at an intersection I slackened my pace, lifted my. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known. "I have to have a single heart. I can't play the harp while I'm bargaining with a mule-breeder. I can't sing ballads while I'm figuring what we have to pay the pickers to keep 'em from hiring out to Lowbough!" His voice shook a little now, a vibrato, and his eyes were not sad, but angry. Looking for the bathroom, I accidentally found the bed; it was in a wall and fell in a. "And a good thing too!" Golden said roundly. "What's become of that daughter of hers, then? He thought of the spring of water that had run from the broken earth..For a moment longer they held still; then the night wind blew across their naked shoulders, and shivering, they waded out, dried themselves as well as they could, struggled barefoot and wretched through the sharp-edged reeds and tangling roots, and found their way back to the lane. And there Dragonfly spoke in a ragged, raging whisper: "How could you name me that!".He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee.He walked down the straggling street of Purewells to Sans house, which was about midway, opposite the tavern. A long, long.ONE WINTER AFTERNOON on the shore of the Onneva River where it fingers out into the north bight of the Great Bay of Havnor, a man stood up on the muddy sand: a man poorly dressed and poorly shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His clothes were soaked. He hunched his shoulders, turned about, and set off towards a wisp of chimney smoke he saw far down the shore.
