It was a hopeless task to choose which two or three to save in the time she had. She might have done better but for the freakish nature of her struggle to reach them; she was in shock and half believed it was only a nightmare. So she grabbed the nearest, who happened to be Doctor Ralston. He had nearly finished donning his suit; so she slapped his helmet on him and moved to the next one. It was Luther Nakamura, and he was not moving. Worse, he was only half suited. Pragmatically she should have left him and moved on to save the ones who still had a chance.
