The idea of doing harm troubled her, but the idea of danger had not entered her mind. She found it inconceivable. "I'll be all right," she said. "So the Namer, and you - and the Doorkeeper?". There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along- he could stride, then- with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Magers of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger.. felt a discomfort in pressing the question.. I put out my cigarette.. You must make your choice alone, as a man. Do you understand that?" Golden was earnest, seeing his chance to begin to wean the lad from his mother. He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. Among the scholars and other teachers he had a place of honor, but he wasn't one

of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little. The Summoner would send gifted students to him, but many of the boys there scarcely knew of him. In this isolation he began to practice certain arts that are not well to practice and lead to no good thing..insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight."You can let me into the Great House, sir." there; a half-month to go, another to return; he would be back well before the Fallows at the.Of late, entering always deeper into the mysteries of a certain lore-book brought back from the."He was here!" she cried. "I have some old shoes of my husbands." It cost her something to say that, yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought. "I'll set em out for you," she said. "Yours are perished."He looked up suddenly. The sheep, who had been grouped near the stile, were scurrying off, and someone was coming along the path from the Great House.."And now?".The light went with her. He was alone in the dark. The cold grip of the spells took him by the.betrayed..He did not forgive his son. It would have made a happy ending, but he would not have it. To leave so, without a word, on his nameday night, to go off with the witch-girl, leaving all the honest work undone, to be a vagrant musician, a harper twanging and singing and grinning for pennies -- there was nothing but shame and pain and anger in it for Golden. It took them a long time. There was a rivalrous spirit in him that made him look on any power he did not have, any thing he did not know, as a threat, a challenge, a thing to fight against until he could defeat it. There are many boys like that. I was one. But I was lucky. I learned my lesson young.."If a word can heal, a word can wound," the witch said. "If a hand can kill, a hand can cure. It's a poor cart that goes only in one direction,.". "Maybe with such teaching you could teach the wizards a lesson," Mead said..off with a juggler, I heard?".Veil, with her gentle voice and smile, was implacable. She told Medra that though she had.and heavy. "When will we do it?"
